PAKISTAN GETS THE RAMON MAGSAYSAY AWARD, POPULARLY KNOWN AS THE ASIAN NOBEL PRIZE

In electing Dr. Muhammad Amjad Saqib, Chairman Akhuwat, to receive the 2021 Ramon Magsaysay Award, the nominating committee recognizes the intelligence and compassion that enabled him to create the largest microfinance institution in Pakistan. It is a tribute to his inspiring belief that human goodness and solidarity will find ways to eradicate poverty, and his determination to stay with a mission that has already helped millions of Pakistani families.

Akhuwat is the largest microfinance institution in Pakistan, offering a package of loans for the poor. It has distributed 4.8 million interest free loans amounting to the equivalent of USD 900 million, helping three million families, with a remarkable 99.9% loan repayment rate.

DR AMJAD SAQIB IS AWARDED THE RAMON MAGSAYSAY AWARD

“

This institute of learning has produced many distinguished persons. Unfortunately, it had deteriorated over the years. Akhuwat partnered with the Government of Sindh to run this school and indeed this has been a very successful partnership. I was delighted to meet the bright children who Insha-Allah will be shining stars; I thank Akhuwat for all the help and hope this partnership continues to flourish.

”

Message from CM Sindh, Murad Ali Shah

Hostel 4th Batch Orientation

Total Students living in Hostel Facility
246 Boys, 81 Girls

We aim to provide free and quality education as a fundamental right to our youth all over the country; we also help them overcome social and geographical barriers that may hinder their pursuit of education. With the help of the Sindh Education Foundation (SEF), entry tests were conducted for interested students all over the province. Successful candidates then cleared an interview process; the 120 students who passed are now enrolled in our hostel. We welcomed our Fourth Hostel Batch on 10th October, 2021. Good luck for a bright future ahead! Welcoming you all to be a part of your second home - NJV School.

Fab-Lab

The Fabrication Laboratory (Fab-Lab) has been designed to provide a state-of-the-art facility with the latest rapid prototyping tools, computerized machinery and various hand tools and power tools to make and ideate on different projects, learn vocational skills and apply them for real world solutions.

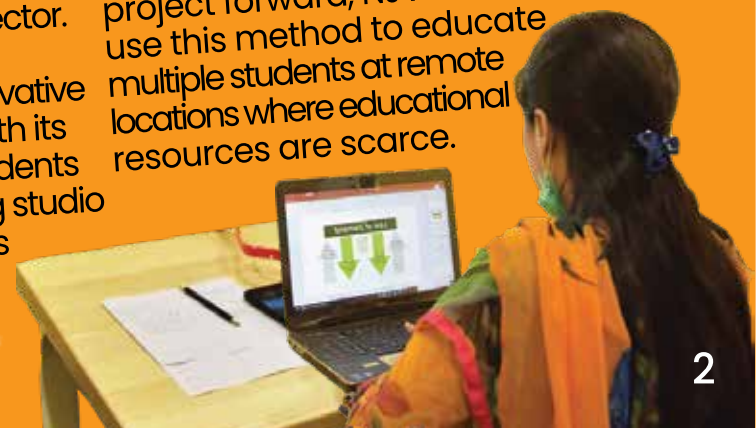

E-Learning

Education is being revolutionized globally through integration of technology and digital resources. The need for online education increased when the COVID-19 pandemic hit and normal activities came to a halt. Arguably, education is the most effected sector.

Where many institutes fell behind in adopting an innovative approach to education, NJV School stepped up with its eLearning project. From providing tablets to the students in need, to developing a state-of-the-art eLearning studio setup, NJV School's management and academics team set an example of quality education through online means.

We are proud of our teachers who adopted the new methodology with high spirits and continued the flow of education with zeal. Taking this project forward, NJV School aims to use this method to educate multiple students at remote locations where educational resources are scarce.

As part of its 360-degree student development model, NJV sent a group of grade-XII students to the northern areas of Pakistan. This all-Pakistan Educational Tour gave participants a chance to see and get to learn about diverse places and cultures across the country. The students were also taught how to work as a team while learning leadership and discipline in preparation to become future leaders of Pakistan.

The journey started on 22nd September 2021 from Karachi. The group of 80 people – including students and mentors – took a flight from Jinnah International Airport to Lahore. For most students air travel was a new learning experience.

Lahore, known as the city of gardens, is home to Akhuwat's Head Office; over the years many social interventions have been undertaken by Akhuwat in Lahore and its surroundings. During their four-day stay in Lahore, the group visited the Akhuwat Head Office, Fountain House, Minar-e-Pakistan, Badshahi Mosque, Red Fort, Havel Restaurant, the Walled City, and Akhuwat Learning Hub School. A full day trip to Akhuwat College Kasur was taken to witness inauguration of the Hospitality Management Institute, including a motivational session by Akhuwat Founder Dr. Amjad Saqib.

The group then visited Akhuwat's Faisalabad Institute of Research, Science and Technology (Akhuwat FIRST), Akhuwat Women's College Chakwal, and then headed for the mesmerizing valleys of Azad Kashmir.

For the next four days, the group travelled across Muzaffarabad, with stopovers at Pateka, Keran, and Sharda. They also trekked through the upper Neelum Valley and visited Kutton Waterfalls. This was quite a memorable and enjoyable time as, with no phones or internet, the students and their mentors were solely engaged in experiencing the beauty of Mother Nature.

The students also got a chance to visit the Pak Austria Fachhochschule, Institute of Applied Sciences and Technology, in Haripur. The detailed tour of the facility was quite a learning experience.

The group had a lunch stopover at Murree, then proceeded to Islamabad. As it was now 3rd October – the third anniversary of batch one hostel students – a celebration was held with cakes and pizzas; the cold rain in Islamabad added a flavor of itself.

In Islamabad, the group toured the Islamic International University, the National Assembly, Central University of Science and Technology, Rawalpindi's Raja Bazar, Ghulam Ishaq Khan University, and the Institute of Regional Studies. During the visit to Islamabad Club, students got a chance to interact with and be mentored by high-ranking government officials, a truly inspiring experience. While meeting the Foreign Secretary, Mr. Sohail Mehmood at the Foreign Secretariat, the group was paid a surprise visit by Shah Mehmood Qureshi, the Foreign Minister of Pakistan.

The group departed from Islamabad on 7th October 2021 via Greenline Business train; again, a new experience for most students. Arrival in Karachi was on the 8th of October, replete with long-lasting memories, gratitude, improved social sense, and plans to change the world!

Events & Achievements

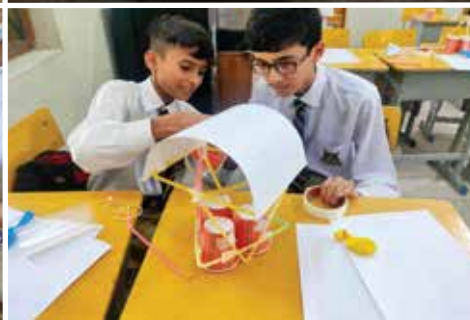

Basketball Tournament

NJV hosted the 1st floodlit basketball tournament in September. Nine teams from different schools and colleges participated in the fight for the trophy. The chief guest of the opening ceremony was basketball legend S.M. Tanvir, a former Pakistan basketball captain.

NJV 1ST FLOOD LIGHT BOYS BASKETBALL TOURNAMENT

For Schools & Colleges

Summer Camp 2021

A summer camp was held in July 2021 to encourage the young artists of NJV School to display their aesthetic ideas, paintings, colors and creativity. It was a chance to get a thumbs up for their ideas and art.

Art and Crafts, Ceramics, Science, Music, Sports, and Cooking were offered to grades III to VIII. Around 450 junior to senior students participated and completed their projects

TRC Training Session

The TRC team held an ESD (English Skills Development) training for primary teachers from 25th October to 8th November, 2021. The interactive training was held in a round table seating environment at the NJV Govt. Higher Secondary School auditorium. Thirty NJV teachers attended the training in the auditorium while around thirty more Akhuwat associated teachers from Lahore and other areas joined virtually. Action steps developed by the teachers during the training are being implemented in the classroom under TRC guidance.
